About the **COMPANY**

Introduction

Medihub Healthcare is a leading provider of high-quality medical consumables. Founded by industry experts with over 20 years of collective experience, Medihub Healthcare was established in 2024 with a mission to deliver innovative healthcare solutions to professionals and organizations worldwide. Headquartered in Kathmandu, Nepal, with a state-of-the-art manufacturing facility in India, we are committed to improving global healthcare standards through trusted products that prioritize safety, reliability, and cost-effectiveness.

At Medihub Healthcare, we understand the vital role medical consumables play in patient care and the operational efficiency of healthcare facilities. Our comprehensive product range includes medical devices, surgical instruments, diagnostic tools, and consumable supplies, all designed to meet the rigorous demands of hospitals, clinics, and healthcare professionals across the globe.

Why Medihub Healthcare?

At Medihub Healthcare, our goal is simple: to improve the quality of care worldwide by delivering reliable, affordable, and high-quality medical products that healthcare providers can trust. We are proud to be a partner in advancing global healthcare and improving patient outcomes, one product at a time.

Our Mission

Our mission at Medihub Healthcare is to provide high-quality, reliable, and affordable medical consumables that empower healthcare professionals worldwide to deliver exceptional patient care. Through innovation, strategic partnerships, and a commitment to excellence, we aim to meet the evolving needs of the healthcare sector, enhancing the quality of care while ensuring accessibility and sustainability in every product we offer.

Our Values

Quality First: We adhere to strict quality control measures to ensure that our products meet international standards and regulatory requirements.

Innovation: We invest in continuous research and development to bring forward new solutions that improve patient outcomes and healthcare practices.

Customer Commitment: We are dedicated to understanding and meeting the needs of our customers, providing exceptional service and support.

Global Impact: With a focus on global reach, we supply our products to healthcare providers across multiple continents, ensuring quality care is accessible worldwide.

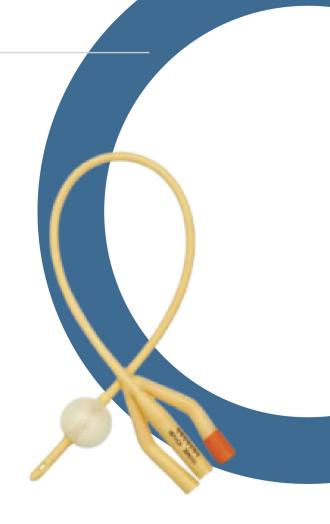

Sustainability: We are committed to sustainable manufacturing practices that reduce our environmental footprint while delivering the highest quality products.

CONTENTS

UROLOGY / NEPHROLOGY	
Foley Catheter Nelaton / Urethral Catheter	
CATHLAB CONSUMABLE	
Skin Stapler	
Skin Stapler Pin Remover	02
DIALYSIS CONSUMABLE	
Hemodialysis Catheter Kit	
Permanent Hemodialysis Catheter and Kit	02
INFUSION THERAPY / SURGERY & DRAINAGE SYST	EM
Pressure Monitoring Line (PMO Line)	
ANESTHESIA & RESPIRATORY CARE	
Ventilator Circuit Kit	06
Oxygen Mask	06
Nasal Oxygen Cannula	07
Nebulizer Mask	07
Epidural Anesthesia Kit	08
Guedel Airways/Oropharyngeal Airways	08
GASTRO - ENTEROLOG	
Ryle's Tube	09
Infant Fedding Tube	00

FOLEY CATHETER

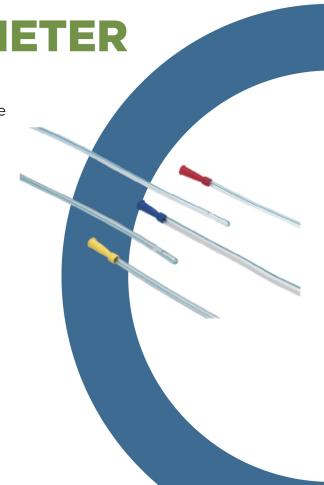

- Foley Baloon Catheter, latex 2 way
- Made up of latex bonded with silicone elastomer.
- Coned, soft closed tip facilitates ease penetration.
- Large, distally located drainage eyelets enable efficient, trouble-free drainage.
- Syringe luer operated non-return valve facilitates hassle free inflation and deflation of balloon.
- Symmetrical large capacity balloon ensuring good sphincter action, preventing any bladder leakage.
- Colour coded for instant size identification.
- Sterile, individually packed in paper pouch.
- Size: 6, 8-10, 12-14, 16-26
- Foley Baloon Catheter, latex 3 way
- Size: 16,18, 20, 22, 24 & 26

NELATON

URETHRAL CATHETER

- Used for one time urine drainage for patients
- Made from non-toxic, non-irritant, medical grade PVC
- Radio opaque line provided through out the catheter for X-ray visualization
- Distal end with lateral eyes and proximal end funnel connector, for maximum drainage and easy connection to the urine bag
- Size: 6, 8, 10, 12, 14, 16, 18, 20

SKIN STAPLER

- Specially Designed For Ease Of Operation
- Disposable Single Lise Product
- No Jamming / Easy Operating System
- Visible Cartridge to Check Remaining Stapler
 Pins
- Bold Marking at 15/25/35 Staple Alignment (The Assistant Of Surgeon)
- One Click Fire
- Size: 35

SKIN STAPLER PIN REMOVER

- These staple removers are compatible with any brand of skin staple
- They are quick and easy to use
- They reduce pain and infection risk.
- This staple remover is simple to use and require minimal maintenance.
- Staple Remover is made from 100% pure Stainless Steel
- Staple Remover is sterile and ready to use

HEMODIALYSIS CATHETER KIT

Haemodialysis catheter are single/double/multiple lumen catheter that provides temporary vasculer access for haemodialysis untill a permanent access is available or until another type of dialysis therapy is substituted. The multiple lumen catheter contains two large bore lumens that are connected to the dialysis machine to form a complete circuit for the removal and return of the patient's blood during treatment.

- Polyurethane HD Straight/Curve Catheter
- Nitinol Core Guidewire with Advancer "J" Tip 70cm
- Catheter Protector Pouch
- 18Ga 7cm Introducer needle
- 5ml Guiding Syringe
- 5ml Disposable Syringe
- Vessel dilators
- Scalpel #11
- Injection Cap
- Patient Identification sticker
- Drape Sheet
- Suture Needle (3/8 Reserve Cutting) 26mm

AVAILABLE SIZES

Туре	Description	Type	Description
Double Lumen	6.5 FR X 13 CM	Double Lumen	11.5 FR X 20 CM
Double Lumen	6.5 FR X 20 CM	Triple Lumen	12 FR X 13 CM
Double Lumen	8.5 FR X 11 CM	Triple Lumen	12 FR X 15 CM
Double Lumen	8.5 FR X 13 CM	Triple Lumen	12 FR X 16 CM
Double Lumen	11.5 FR X 13 CM	Triple Lumen	12 FR X 20 CM
Double Lumen	11.5 FR X 15 CM	Triple Lumen	6.5 FR X 13 CM
Double Lumen	11.5 FR X 16 CM	Triple Lumen	6.5 FR X 20 CM

PERMANENT HEMODIALYSIS

CATHETER AND KIT

The Catheter is made from premium silicone, which has excellent biocompatibility. The dacron cuff can protect immigration of catheter and reduce the chance of CRBI (Catheter Related Bloodstream Infections). The silicone material makes catheter more floppy, hence it can minimize the trauma to the vein and reduce the incident of clot.

Set Contains:

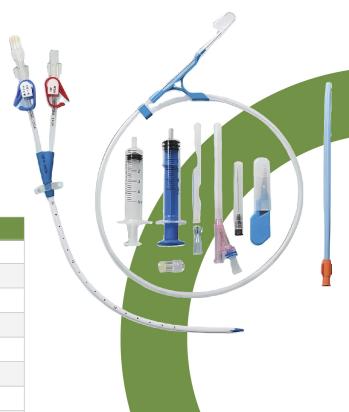

- Silicone Catheter
- Valved Peelable Introducer
- Introducer Needle
- Adhesive Wound Dressings
- Scalpel
- Guide-wire
- Tunneler
- Syringe
- Gauze Sponges
- Vessel Dilator
- Needle with Suture
- Heparin Caps

AVAILABLE SIZES

Туре	Description
Double Lumen	15FR x 19CM
Double Lumen	15FR x 23CM
Double Lumen	15FR x 28CM
Double Lumen	15FR x 33CM
Double Lumen	14.5FR x 19CM
Double Lumen	14.5FR x 23CM
Double Lumen	14.5FR x 28CM
Double Lumen	14.5FR x 33CM

Note: The available catheter length for the triple lumen is between 13cm and 50cm.

PRESSURE MONITORING LINE

- Used for high pressure monitoring, and connection between syringe infusion pump and patient
- Made from non-toxic medical grade PVC
- Can withstand a pressure of 580 PSI
- Provided with universal male luer lock and female luer lock at either end to ensure securely fit all standard equipment
- Optional lengths available
- Size: Length: 110cm, 150cm, 200cm
- Prime Volume: 0.9ml, 1.40ml, 1.80ml

- Used for removal of secretion and blood pass during surgical procedures
- Made from non-toxic, non-irritant PVC
- Flexible kink resistant tube provides uninterrupted flow during suction
- Soft connecters at both ends of the tube for easy connection
- Available in Standard / Round Tip Handle
- Suitable for use with or without vent control facility
- Tube Length: 2500mm (2.5mtr.)
- Tube Diameter: 9mm

VENTILATOR CIRCUIT KIT

Single heated circuit adult with catheter mount+HME bacterial viral kit+suction toothbrush+nebulizer kit+T-piece

- A single heated circuit is a respiratory support system component used to deliver warmed and humidified gases to a patient during mechanical ventilation or oxygen therapy.
- Made up of Tubing, Heater Wire, Humidifier Chamber
- Used for Mechanical ventilation, Oxygen therapy,
 High-Flow Nasal Cannula (HFNC) Therapy
- Size: 22 mm, 15 mm, 10 mm
- Length: 1.0 to 1.2 meters, 1.2 to 1.5 meters, 1.5 to 2.0 meters

OXYGEN MASK

- Used for efficient oxygen administration to patient
- Made from soft, non-toxic, medical grade PVC
- Elastic strap and aluminum nose clip for proper adjustment of mask
- Multi-channel tube ensures regular supply of oxygen even if the tube is accidently kinked
- Proximal end of tube provided with universal connecter for easy connection with oxygen source
- Size: Adult: 210cm (7ft), Child: 210cm (7ft)

NASAL

OXYGEN CANNULA

- Used for efficient oxygen administration to patients
- Made from soft, non-toxic, medical grade PVC
- Twin nasal tips ensure equal volume of oxygen to both nasal passages for greater patient comfort
- Multi-channel tube ensures regular supply of oxygen even if the tube is accidently kinked
- Proximal end of tube provided with universal connecter for easy connection with oxygen source
- Size: Adult: 210cm (7ft), Child: 210cm (7ft), Infant:
 210cm (7ft)

NEBULIZER MASK

- Specially designed nebulizer chamber with nebulization rate of approximately 3 cc in 10 minutes.
- Average particle size generation is approximately 2 microns.
- Complete kit consists of: Nebulizer mask,
 Nebulizer chamber and 210 mm Star Lumen
 Tube.
- Large, distally located drainage eyelets enable efficient, trouble-free drainage.
- Sizes: Adult and paediatric

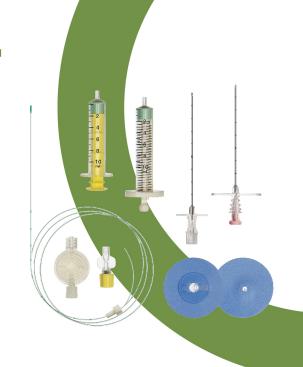

EPIDURAL ANESTHESIA KIT

Epidural catheter is specially designed for continuous anesthesia and pain relief therapy.

Catheter is made from unique plasticizer free polymer with excellent bio-compatibility. Flexible and atraumatic soft tip with three lateral eyes.

Catheter is printed to determine the depth of insertion and accurate placement of catheter in the epidural space. Luer lock twist connector. Crystal clear catheter with radio opaque line.

Kit Contains:

- Epidural/tuohy Needle
- Luer Syringe
- Detachable Connector
- Hydrophobic Filter
- Epidural Catheter
- Threading Assist Guide
- Sizes: 16 and 18g (Length: Standard)

GUEDEL/OROPHARYNGEAL

AIRWAYS

- Used to maintain an unobstructed oro-pharyngeal airway
- Made from rigid, non-toxic medical grade PVC
- Colour coded in-built bite blocks to avoid airway occlusion and biting of tongue
- Sizes: 000, 00, 0, 1, 2, 3, 4, 5

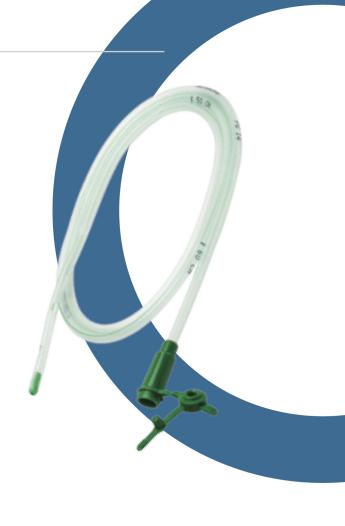

RYLE'S TUBE

- Used for nutritional feeding purposes or aspiration of intestinal secretions
- Made from non-toxic, medical grade PVC
- Enhanced patient safety
- Coned distal end with steel balls sealed into the tube to facilitate easy insertion
- Four lateral eyes for efficient drainage
- Proximal end universal funnel conector
- Markings at 50, 60 and 70 cm and radio opaque line for accurate placement
- Optional: SMD 601 L available with Luer mount fitting
- Ryle's Tube Uncoated SMD 601 also available
- Sizes: 6, 8, 10, 12, 14, 16, 18, 20

INFANT FEDDING TUBE

- Used for neonates and paediatric feeding
- Made from non-toxic, medical grade PVC
- Smooth coned distal end for atraumatic intubation, with two lateral eyes for efficient drainage
- Markings at 20cm and radio opaque line for accurate placement and X-ray visualization
- Proximal end with luer mount for connection with feeding device
- Marking from the tip 5 cm to 40 cm
- Colour coded for instant size identification.
- Sterile, individually packed in paper pouch.
- Sizes: 4, 5, 6, 7, 8, 9, 10
